Breakfast conference: “GDPR, one year on: What controls for what penalties?”

The European General Data Protection Regulation (GDPR) has been in force throughout the European Union since May 25, 2018.

Since that date, bodies and organizations that process personal data are supposed to be in compliance with this Regulation.

Breaches of this Regulation, investigated by the CNIL (French Data Protection Authority) who has been granted extended powers, may result in penalties of up to 4% of the annual turnover.

Almost a year after the entry into force of the GDPR, our firm has organized, together with Magellan Consulting, a consulting firm in strategy, management and information systems specializing in the digital transformation of companies, two breakfast-conferences on the theme “GDPR, one year on: What controls for what penalties?” that were held On May 21 and May 24 in Paris and Lyon.
