Invitation to two webinars on NFTS and Brands in the Metaverse, and on Environmental, Social and Governance (ESG)

As part of the **WLG | at large '22** event which will take place in December, the [World Law Group](#), a network of 60 leading independent law firms with more than 400 offices in major commercial and financial centers worldwide, of which our Firm is a member, is organizing a series of webinars. The following webinars are open to everyone.

NFTs and Brands in the Metaverse

Metaverse, NFTs, and virtual reality are buzzwords that not only shed a light on an exciting technological future, but also on the immense challenges right owners are facing in this new virtual world. How does the use of brands in the Metaverse relate to traditional brand protection strategies? In how many ways are copyrights created and affected in virtual reality? Can existing regulations be adapted to this new reality to create new legal provisions for the Metaverse in order to grant users and right owners better protection?

These questions, as well as many others, will be explored in this webinar that will be hosted by the *Intellectual Property & Information Technology Group* of the World Law Group on December 6 at 14:00 UTC.

The G in ESG

A corporation's purpose, the role and makeup of its board of directors, shareholder rights and disclosures, and measuring executive performance are globally recognized as critical factors in corporate governance. How can a better understanding of these factors and the risks involved impact corporate decision-making in today's environment?

These issues will be discussed in this webinar that will be hosted by the *Compliance & Investigations Group* of the World Law Group on December 7 at 01:00 UTC.
